

# High Impact Campus

## Visi

- Middle school field trips to UCR campus create a low cost, high impact way to sustain our outreach efforts after grant program ended
- Added benefit of bringing students to campus, which:
  - Exposes students to university environment and to STEM career opportunities
  - Increases students' comfort on a college campus
  - Increases likelihood that students will pursue a college degree, esp. in a STEM field
- If you are in a education dept. on your campus, you can easily partner with a science dept.

# High Impact Campus

- Full day field trips for up to 100 students
- Low cost
  - After initial construction, activities can be reused
  - Undergraduate volunteers
  - Graduate organizer
- Several, rotating activities
  - Examples: Greenhouse gases, global temperature, sea level rise, melting ice, extreme weather, solar ovens
- Subject matter – primarily fixed but with flexibility built in
